

# JUAN SEBASTIÁN GUERRERO BRITOS

Técnico Universitario en Programación

juansgb316@outlook.com +542616679597 Dorrego, Mendoza, Argentina www.juanguerrero.dev

## SUMMARY

Backend & Full Stack Developer experienced in Node.js, TypeScript, Java, Spring Boot, PostgreSQL, MySQL, and Docker. Skilled in scalable architectures, microservices, RESTful APIs, database optimization, containerized deployments, and real-time applications. Strong problem-solving and DevOps experience in agile environments.

## EXPERIENCE

### Tech Lead Manager

Apequa

08/2024 - Present

Mendoza, Mendoza, Argentina

- Led the backend architecture and system design of a real-time geolocation app
- Managed VPS performance and stability through optimized server configuration
- Developed category/time/location-based search filters with high precision

### Full Stack Developer

Tecnología Activa

03/2025 - 07/2025

Godoy Cruz, Mendoza, Argentina

- Refactored MySQL schemas and queries for better normalization and speed
- Led the migration and restructuring of legacy database models
- Participated in architectural reviews and DevOps process improvements

### Backend Developer

IT Hotbed

03/2024 - 05/2024

Remote

- Developed microservices and APIs using Spring Boot with Clean Architecture principles
- Implemented JWT-based authentication and role-based access control
- Improved system performance by optimizing SQL queries and indexes

## EDUCATION

### Universidad Tecnológica Nacional

Associate of Computer Science

08/2023 - Present

Mendoza, Mendoza, Argentina

### GNU/Linux Manager

10/2024 - 12/2024

### Colegio de Lenguas Extranjeras

B2 English Certification

03/2016 - 12/2020

Mendoza, Mendoza, Argentina

## SKILLS

**Technical Skills:** Node.js, TypeScript, Java, Spring Boot, PostgreSQL, MySQL, Docker, Nginx, VPS, Linux, Microservices, RESTful APIs, Clean Architecture, SQL optimization, DevOps

**Languages:** Spanish (Native), English (Intermediate)

**Additional Skills:** Problem-solving, System design, Real-time applications, Multi-timezone support, Continuous learning
